

## **Lent in Earnest.**

*Lent in Earnest ; or, Sober Thoughts for Solemn Days.* By Lucy Ellen Guernsey. [Thomas Whitaker. \$1.00.]

This devotional book is of a wholesome quality. The same cannot be said of all devotional books these days, especially of some which emanate from the Anglican quarter of the ecclesiastical heavens, as this does. There is no nonsense in this book, no false sentiment, no silly and puerile artificiality, no Pharisaic formalism, but sincere, simple, genuine milk of the word. There are some fifty short chapters or readings, one for each of the days and Sundays in Lent. The doctrinal basis is "evangelical," the manner practical, the spirit tender and helpful. We recommend the book cordially.
