

"Behold the Man" and "Behold Your King" ]  
American Tract Society, N. Y.

"Behold the Man" is a vivid and sympathetic picture of the indignities heaped upon our Saviour in the humiliation of his trial, and the agony of his last hours; while "Behold Your King" points earnestly to that Saviour risen and glorified, "King of kings and Lord of lords." The book is a tractate of only forty-four pages. It presents a pleasing appearance, the paper and press work being good, and the cover, an imitation of white leather with gold and green embossing.

WHAT IS CHRISTIAN SCIENCE? AN Examination of the Metaphysical, Theological and Therapeutic Theories of the System. By P. C. Wolcott, B. D., Rector of Trinity Church, Highland Park, Ill. Fleming H. Revell Co., Chicago.

In this excellent little compend of the doctrines of Christian Science, the author groups its teachings under three heads;—"the metaphysics," "the theology," and "the therapeutics," of Christian Science. Mr. Wolcott happily displays the emptiness and the danger of this teaching.
